FINANCIAL HIGHLIGHTS

For the six months ended 30 June 2024

COMMENTARY

Overview

Curro's key financial metrics all improved in the six months ended 30 June 2024. Recurring headline earnings for the first half of this year increased by 12.3% to R228 million (2023 H1: R203 million) and the group's operating margin expanded by 1.0% to 18.0% (2023 H1: 17.0%).

Results for the six months

On a time-weighted basis, Curro's average number of learners for the first half of 2024 increased by 0.5% to 72 758 learners (2023 H1: 72 385) and revenue increased by 8.3% to R2 588 million (2023 H1: R2 389 million) from the previous comparable period.

The total school fee revenue increased by 6.8% due to the growth in learners, coupled with the annual increase in school fees for this year, which averaged about 6.0% per learner for this year. The group recorded a strong increase in ancillary revenue, which was 17.2% higher than the previous period. The total discounts granted were similar to the comparable period and decreased to 6.1% of gross school fees from 6.7% in the previous period.

Total operating costs (excluding depreciation, amortisation and expected credit losses) increased by 8.1%, with total employee costs constituting about two thirds of the group's total operating costs. The total increase in employee costs was 7.4%, while other expenses grew by 9.4%. Excluding the three new school campuses opened in the current period, employee costs increased by 6.7%, and other expenses rose by 8.7%.

Accordingly, the ratio of other expenses to revenue in the current period was higher than the prior corresponding period, driven by additional extramural activities and increased costs associated with the growth in ancillary services. If the cost to execute the increased ancillary services revenue is excluded from other expenses, the other costs increase by 6.8%.

The expected credit losses of R77 million provided for during the first half of this year were similar to the R78 million provided in the first half of last year. The remaining debtor's book, net of the expected credit loss provision, consists of R240 million (2023 H1: R194 million) of actively enrolled accounts and R121 million (2023 H1: R90 million) of inactive accounts.

EBITDA (earnings before interest, taxation, depreciation and amortisation) increased by 10.4% to R625 million (2023 H1: R566 million).

Headline earnings and headline earnings per share ('HEPS') increased by 12.3% from R203 million to R228 million and by 16.2% from 34.6 cents to 40.2 cents, respectively.

Recurring headline earnings and recurring headline earnings per share ('RHEPS') increased by 12.3% to R228 million (2023: R203 million) and by 16.2% to 40.2 cents (2023: 34.6 cents), respectively.

Earnings per share ('EPS') of 40.2 cents for the period under review increased with 20.4% from the 33.4 cents in the previous period.

Funding and cash flows

Curro generated 2.8% more cash from its operating activities than the comparable period, following higher tax and interest payments and higher inflows from changes in working capital than in the previous period.

Total debt, net of cash and investments in money market funds, reduced from R3.236 billion on 31 December 2023 to R3.199 billion on 30 June 2024. During June 2024, GCR ratings affirmed both the long- and short-term national scale issuer ratings assigned to Curro at A(ZA) and A1(ZA) respectively, with a stable outlook.

Curro's business operations are resilient and the group is in a healthy financial position. The board declared and paid an annual dividend of R83 million and the group continued to buy and cancel its own shares, having purchased a further 10.4 million shares for R116 million during this period.

Investment

Curro is actively pursuing opportunities to offer quality education to more learners in Southern Africa. The group opened three new campuses in Walvis Bay and Oshana in Namibia and at Barlow Park in Sandton, Johannesburg during this period. The two new campuses in Namibia are part of a joint venture. Much of the group's focus in the short to medium term is to support and increase the capacity utilisation of its existing facilities.

Curro invested R306 million in its business during this period (2023 H1: R312 million) and plans to invest up to R700 million in capital projects during the full 2024-year to maintain, replace and expand its facilities and accommodate the strong demand for, particularly, high school tuition.

Other investing activities of R16 million in the statement of cash flows represent the aggregate net decrease in money market investments and other financial assets (2023 H1: R41 million).

Prospects

The group increased its operating margin during this period and we expect that Curro will sustainably generate more cash from its operations than what is required for capital expenditure in the future.

Despite a strained economic environment, our customers trust Curro to provide high quality education and we are deeply committed to excellence.

On behalf of the board

TB Baloyi
Chairperson

1. 2009 and before schools have a maximum of 20 learners per class, which has a direct impact on the EBITDA. Other schools have a maximum of 25 learners for Curro and Select or 35 for Meridian and Academy schools. Curro Durbanville's new High School increased capacity in 2022.

2. Acquired schools indicates the year the school was incorporated into Curro.
