Message to shareholders

Introduction

The Group delivered a decent result for the six months ended 31 December 2024 despite the expected headwinds in bulk commodity movements and renewable energy product sales, as well as an unexpected weak Adcock Ingram (Adcock) performance.

The majority of Bidvest businesses generated substantial and consistent profits, with four of the six divisions reporting trading profit growth. This performance was driven by continued demand for everyday essential products and services supplied by the Group across most sectors of the economy. New business growth, additional tank capacity and bolt-on acquisitions helped to mitigate the impact of price sensitive customers and weaker than anticipated discretionary consumer spend.

Pleasingly, free cash generation was positive with almost half a billion rand increase year on year in this seasonally weaker interim period. This resulted in a flat net debt/EBITDA ratio even though we continued to execute on our growth strategy, concluding six bolt-on acquisitions.

Bidvest Bank, FinGlobal and Bidvest Life are reported as discontinued operations. As announced in December 2024, we are pleased with the respective signed offers that make both financial and strategic sense whilst also providing continued employment for employees. The conditions precedent are mainly regulatory in nature.

Highlights

A slightly lower overall gross profit margin of 27.6% was achieved, due largely to the divisional mix shift. Individually, all but two divisions held or improved their margins. Expenses were well controlled across the divisions.

Four out of the six divisions reported good trading profit growth. The expected contraction in Freight and Commercial Products' trading profit was primarily due to no maize export volumes handled and cycling of the elevated renewable energy sales base. The unexpected Adcock result was due to declining consumer spend, reduced inventory holdings in the pharmaceutical wholesale channel and the knock-on effect of factory under-recoveries.

Cash generated by operations after working capital increased by an excellent 18.4% to R4.5 billion. The resultant cash conversion ratio improved from 33.4% to 44.8%.

On a FY2024 pro-forma basis, the capital structure of the Group's continuing operations yielded a higher than overall Return on Funds Employed (ROFE), but a lower Return

on Invested Capital (ROIC). At 31 December 2024, as a result of the flat interim trading profit and continued capital investment in the business, ROFE and ROIC declined to 37.9% (1HFY2024 40.9%) and 14.4% (1HFY2024 15.8%), respectively on a like-for-like basis. ROIC remains above the Group's weighted cost of capital.

Continuing operations HEPS and Normalised HEPS¹, a measurement used by management to assess the underlying business performance, contracted by 1.1% and 0.4%, respectively.

The Group declared an interim dividend of 470 cents per share, 0.6% higher year on year.

(1) Normalised HEPS, which excludes acquisition costs, amortisation of acquired customer contracts and the impact of one-off taxation events, is a measurement management uses to assess the underlying business performance

Financial overview

Group revenue grew 5.7% to R64.5 billion (1HFY2024: R61.1 billion).

Expenses were again well managed. On an organic basis, the 1.8% increase was below inflation.

Trading profit of R6.3 billion was in line with the prior period and the trading profit margin moderated to 9.7% (1HFY2024 10.3%). In Services South Africa and Branded Products, new business wins, volume growth and a broader product and/ or service offering together with firm gross margin and cost control were the common features of the outstanding trading profit growth of 16.0% and 9.7%, respectively. The ongoing strategic realignment in Automotive to increase diversity and adjust to structural changes through a combination of organic and acquisitive actions, yielded an excellent overall result (+14.1%). Services International delivered strong overall growth (+8.7%) in both hygiene and facilities management services. The domestic businesses performed strongly while the international contribution was boosted by acquisitions, moderated by foreign exchange movements. Negative operating leverage in the bulk commodity terminal operations could not be mitigated by strong performances in the balance of the Freight division (-11.9%). The sharp drop off in renewable energy product sales and profitability together with muted industrial demand culminated in a 26.9% contraction in Commercial Products' trading profit. Adcock's trading profit declined by 17.0% due to lower volumes and negative gross margin mix.

Message to shareholders continued

Acquisition costs were incurred for several bolt-on transactions, both locally and abroad. The amortisation of acquired customer contracts increased from R204.2 million to R222.3 million at 31 December 2024, mainly due to the full period impact of acquisitions concluded during the course of FY2024.

On a like-for-like basis, Bidvest's net debt increased by R5.7 billion since 30 June 2024 to R30.9 billion. The majority, R3.5 billion, of the increase was corporate action driven with the balance representing the dividend payment to shareholders. 60.3% (1HFY2024 73.7%) of net debt is offshore. The multicurrency syndicated revolving credit facility was utilised for the offshore acquisitions, while new preference share funding was raised locally. As part of proactively managing the Group's debt maturity profile and liquidity, local bonds were successfully refinanced and tenure extended at more attractive interest rate spreads than previously. A tender offer for \$322 million of Bidvest's 3.625% senior notes due 2026 was also completed.

Net finance charges were 5.4% higher at R1.3 billion (1HFY2024: R1.2 billion). Excluding IFRS16 fair value adjustments and hedge costs, the increase was 17.2%. This was as a result of R3.8 billion average higher gross debt as well as the net increase in funding costs due to the mix change as set out above. The Group's average cost of funding is 6.9% – pre-tax, compared to 6.5% at 30 June 2024.

Share of associate profits amounted to R88.3 million, largely attributable to Adcock's associate holdings.

The Group's effective tax rate, excluding capital items, is 26.7% (1HFY2024: 26.8%). The foreign tax differential is 0.8%.

Cash generated by operations of R4.5 billion grew by 18.4% compared to the prior interim period (R3.8 billion). The Group absorbed R3.6 billion of working capital, 633 million rand less than a year ago. Trade payables decreased by R3.6 billion on a seasonally consistent basis and the net investment in inventory moderated.

Our covenant net debt to adjusted EBITDA remained at 2.0x as at 31 December 2024, unchanged from the prior year, and up from 1.7x as at 30 June 2024. Interest cover was 6.4x (1HFY2024: 7.3x). Group cash conversion was 44.8%, compared to 33.4% in the comparative period.

Group basic earnings per share (EPS) increased from 960.8 cents to 1 016.1 cents, or 5.8%, the result of a 1.3% contraction in continuing operations EPS and a significant increase in profit after tax from discontinued operations as depreciation and amortisation was suspended in terms of IFRS and healthy trading profit growth across the three entities.

Group HEPS increased by 2.8% to 1 015.5 cents. A net impairment recognised on the disposal group held-for-sale in the prior period moderated the growth.

Group normalised HEPS, which excludes acquisition costs, amortisation of acquired customer contracts and the derecognition of depreciation and amortisation in the discontinued operations, grew by 0.6% to 1 057.7 cents.

Corporate action

Value-accretive corporate action remains a key component of the Group.

Bolt-on acquisitions concluded during the last six months included: Dekra, a vehicle testing station business; WearCheck, a condition monitoring specialist; Serco, a truck body builder; Spec Systems, which has complementary products to the existing print portfolio offering; Nexgen, a facilities services business in the United Kingdom (UK); and Countrywide, a consumable supplier in the UK care sector.

As reported in July 2024, we announced our proposed acquisition of Citron Hygiene, a provider of washroom hygiene products and services in Canada, the USA and the UK. The acquisition is subject to the UK Competition and Markets Authority approval. This process is still ongoing.

Engagement with regards to possible private sector participation in South Africa continues and as described earlier, the disposals of Bidvest Bank and FinGlobal are subject to customary regulatory approvals which are currently being pursued.

Prospects

We remain confident in our clearly defined strategy and that our diverse portfolio of businesses, as a collective, can successfully navigate the environments we operate in. Trading conditions are constrained and rapidly changing, making it more important than ever to deliver value to customers, maintain innovation and be nimble. We will remain focused on what we can control and will continue to contribute to structural advancement in our home base.

To date, structural reform frameworks and ambitions relating to South Africa's infrastructure build have not translated into basic infrastructure spend and increased demand. The projected spend and envisaged opportunities pose exciting growth prospects for the Group over the medium- to long-term. What remains outstanding is action and project mobilisation.

Domestically, the beneficial impact of lower interest rates and inflation should ease pressure on consumer spend, but broad economic activity is expected to remain tight in the immediate future until pro-growth initiatives are implemented. Contractual business will remain healthy while order books and contract pipelines across the Group are encouraging.

Offshore, geoeconomic fragmentation and elevated policy uncertainty make for tough economic backdrops and sizeable labour-related increases will need to be recovered from customers. The annuity nature of these operations and the increased use of technology will contribute to defensiveness.

The bolt-on acquisitions will continue to add incremental value and restructure processes in several businesses will better align cost bases to demand changes.

We are vigorously working towards closing the financial services disposal transactions, whilst pursuing a handful of bolt-on acquisitions. Addressing upcoming debt maturities proactively is also receiving focused attention.

We continue to seek operational excellence and focus on free cash generation while simultaneously shaping our portfolio for the future and creating social value for our own and surrounding communities.

The Group

Bidvest encourages a performance-driven, decentralised business model that continually seeks scale and growth. We fully empower the leadership across our diverse areas of operation – Services International, Services South Africa, Branded Products, Freight, Commercial Products, Automotive and Adcock – which acts as a remarkable catalyst for enduring value creation.

Divisional reviews

Services International

Services International reported a pleasing 8.7% increase in trading profit to R2.0 billion. Organic growth, in constant currency, was modest. Overall, growth was slightly faster in facilities management services and this mix variance moderated the gross and trading margin somewhat. The South African businesses delivered impressive results, a combination of new contract wins, improved retention and excellent cost control. Renewal discussions are currently underway with a few large customers. Internationally trading conditions were challenging but new contract wins were pleasing, retention rates improved sequentially, and bolt-on acquisitions delivered in line with expectations. Difficult restructuring projects are now in the rearview mirror and sales pipelines are being vigorously pursued. Clients are price sensitive and innovative, technology-driven solutions, together with up- and cross-selling are incorporated to deliver value. The contractual recovery of significant labour cost increases, particularly in the UK, and contract retention are top of mind. Divisional cash generation was excellent and ROFE increased to 141.7%.

Freight

Trading profit contracted by 11.9% to R1.1 billion compared to a year ago. This was largely due to the anticipated, and complete, lack of maize exports, exacerbated by lower bulk mineral volumes handled as the combination of less favourable prices and high logistics costs curtailed customers' export activity. Liquid and gas volumes handled grew, boosted by additional tank capacity that came on stream in July 2024, while clearing and forwarding as well as container packaging activity was also higher. Stevedoring delivered mixed results in the various domestic ports. Operations in Namibia benefitted from strong oil and gas activity as well as other mineral movement while the operations in Mozambique are undergoing a business model transition. Despite well controlled costs, the high fixed cost base in the terminal

operations and unfavourable price mix resulted in the overall margin contraction. The capital investment project in petroleum tanks is progressing well, with anticipated commissioning in the second half of 2025. Two capital investment projects were approved in Namibia to increase handling capacity and efficiency in and around Walvis Bay Harbour. Lease extensions are progressing well. ROFE is 46.0% compared to 60.1%. which is attributable to the lower trading performance. ROFE is 46.0% compared to 60.1%. which is attributable to the lower trading performance.

Services South Africa

Bidvest Services South Africa's outstanding 16.0% increase in trading profit to R721.0 million was as a result of all clusters within the division reflecting growth beyond inflation, with the Allied Services and Hospitality and Catering Services clusters delivering excellent results. Organic trading profit growth of 11.0% was superb. Contractual sales growth and strong water demand were the key drivers of growth in Allied Services. Innovation continues to keep the service and product offering fresh, stimulating demand. Notwithstanding the lounge refurbishment program underway, an improved client offering and more passengers culminated in the airport lounges delivering another stellar result. The Security cluster results were solid. Net new business growth in security services was pleasing but negative business mix moderated profitability. Growing air cargo volumes, efficiency gains and innovative new services drove positive momentum in the balance of the cluster. Inbound travel continued its upward trajectory. This together with higher incentive and conference travel more than compensated for downtrading in the corporate travel segment. The recently acquired WearCheck is performing as expected and recently secured an additional global accreditation relating to water testing that adds to their unique offering. ROFE remained stable at 104.8%.

Branded Products

Branded Products grew trading profit by 9.7% to R710.0 million, an excellent result off a high base with several businesses reporting volume growth. This is despite restrained trading, together with intensified competitor activity and pricing strategies, as well as the end consumers prioritising essential and value-for-money purchases. Excluding a bolt-on acquisition, trading profit grew 7.2%. The Office Products cluster delivered strong trading profit growth particularly in office automation and office furniture. The Consumer Products cluster delivered a good increase in profit due to improved margins and efficiency gains in the manufacturing plants. The pickup in consumer demand into Black Friday lost momentum into the festive season and supply chains appear overstocked. Demand in Data, Print and Packaging was lower, but the cluster benefitted from a bolt-on acquisition and tight cost control to neutralise gross profit margin pressure. Growing sales through a broader basket and via multiple channels without overtrading is a focus area across the division. ROFE increased from 37.8% to 39.7%.

Message to shareholders continued

Commercial Products

Trading profit was sharply lower at R541.9 million, as renewable energy product sales was a fraction of what was transacted in the previous period. Depressed industrial activity and manufacturing confidence outweighed a modest pick-up in DIY demand. Outside of the gross profit margin pressure in renewable energy products, year on year swings were mostly mix related which is commendable in a very price competitive market. Restructuring is in progress in a handful of businesses to align the cost base to topline trends. Strong performances were delivered by the plumbing, lighting and brushware wholesale businesses. Improved efficiencies and the benefit of restructuring resulted in higher profitability in the packaging and tape as well as leisure operations. Project work continued in alternative energy solutions while most other businesses reported muted order intake and/or delays. Cash generation was strong. Looking forward, sales and inventory are the focus areas to address the decline in ROFE.

Automotive

Trading profit grew 14.1% to R506.1 million, mainly as a result of the impact of the strategic realignment in this division, which entails the inclusion of new acquisitions, Dekra and Serco, the work being done to shift the McCarthy brand representation to better reflect current and expected vehicle brand and product landscape and the reallocation of the insurance activities. The non franchise motor operations performed well, while the insurance businesses produced resilient trading results on increased gross written premiums and modestly higher investment income relative to last year. Going into the financial year, we anticipated that new vehicle sales had troughed. Unfortunately, the contraction continued into this interim period with new unit sales down 2.7% compared to flat industry sales. Truck sales, in particular, were under pressure in the commodity-driven areas. Gross profit margins are stabilising but as demand shifts to lower priced vehicles, the absolute profit per unit is less. Aftermarket activity was robust and the penetration of value-added products per deal improved. The newly acquired businesses exceeded expectations and exciting cross-selling opportunities are being explored. Further dealer rationalisation and restructuring is currently being implemented. Active engagement continues to further extend brand representation through multi-franchise operations. On a like-for-like basis, ROFE declined to 26.8%.

Adcock Ingram

Bidvest owns an effective 64.8% in Adcock.

Adcock's operational and financial performance during the period ended below expectations, with trading profit of R516.3 million, down 17.0% on the comparable period. This was largely as a result of declining consumer spend, specifically within the lower LSM's, reduced inventory holdings in the pharmaceutical wholesale channel and the material factory under-recoveries. The lower interest rates and reduced inflation should provide some relief to constrained consumers.

Management envisages some movement towards normal inventory holdings at pharmaceutical wholesale customers. Adcock remains committed to seeking additional affordable brands to expand the portfolio and is pursuing further partnerships with multinational pharmaceutical companies.

For more detail on the Adcock results, please refer to www.adcock.co.za.

Bidvest Properties and Corporate

The Group owns a significant property portfolio, which is mainly Bidvest occupied, and spans South Africa, Namibia and the UK. Bidvest Properties delivered a good result with trading profit up by 7.2% to R365.8 million, driven by rental escalations, newly rentalised properties, declining vacancies and excellent cost control.

Corporate costs are incurred in the governance, financial and strategic support provided from the corporate office as well as the Group socio-economic initiatives that include the Bidvest Supplier Development Program, executive development, the SASCOC/Team SA sponsorship, etc.

Discontinued operations

Post the strategic decision to exit the Group's banking operations, Bidvest Bank, FinGlobal and Bidvest Life have been classified as Discontinued Operations in the Group financial statements. In terms of IFRS, the recognition of depreciation and amortisation was suspended in these businesses. To enhance the understanding of the results, we adjusted for this in normalised headline earnings.

On 12 December 2024 it was announced that SPA's were signed for the disposal of Bidvest Bank and FinGlobal, subsequent to conditions precedent.

From a trading perspective, FinGlobal and Bidvest Life reported strong top-line growth moderated by the negative endowment impact and slow capital deployment in Bidvest Bank. Expenses were well controlled with cost savings in all businesses. The Bidvest Bank deposit book remains stable and all regulatory ratios healthy.

For and on behalf of the board

BF MOHALE, Chairman **NT MADISA,** Chief executive Johannesburg 28 February 2025

Dividend declaration

In line with the Group dividend policy, the directors have declared an interim gross cash dividend of 470 cents (376.00000 cents net of dividend withholding tax, where applicable) per ordinary share for the six months ended 31 December 2024 to those members registered on the record date, being Friday, 28 March 2025. The dividend has been declared from income reserves. A dividend withholding tax of 20% will be applicable to all shareholders who are not exempt.

Condensed consolidated income statement for the

Normalised headline earnings per share

Normalised headline earnings per share is a measurement used by the chief operating decision makers, Ms Mpumi Madisa and the Group executive directors. The calculation of normalised headline earnings per share excludes acquisition costs, amortisation of acquired customer contracts, the impact of one-off taxation events (refund of withholding tax and IFRIC 23 provision reversed) and is based on the normalised headline earnings attributable to ordinary shareholders, divided by the weighted average number of ordinary shares in issue during the period. For the first time in the current period, depreciation and amortisation of discontinued operations has been included in the determination of Group normalised headline earnings as if they were continuing operations. The presentation of normalised headline earnings is not an IFRS accounting standards requirement.

condensed consolidated financial statements

The condensed consolidated financial statements have been prepared in accordance with and containing information required by IAS 34: Interim Financial Reporting as well as the SAICA Financial Reporting Guides as issued by the Accounting Practices Committee and Financial Reporting Pronouncements as issued by Financial Reporting Standards Council and the Companies Act of South Africa and the JSE Listings Requirements. The interim report does not include all the notes of the type normally included in an annual financial report. Accordingly, this report is to be read in conjunction with the annual report for the year ended 30 June 2024 and any public announcements made by the Group during the interim reporting period (IAS 34 para 6). Selected explanatory notes are included to explain events and transactions that are significant to an understanding of the changes in the Group's financial position and performance since the last annual consolidated financial statements as at and for the year ended 30 June 2024.

In preparing these condensed consolidated financial statements, management make judgements, estimates and assumptions that affect the application of accounting policies and the reported amounts of assets and liabilities, income and expense. Actual results may differ from these estimates.

Significant accounting policies and judgements

The accounting policies applied in these condensed consolidated financial statements are the same as those applied in the Group's consolidated financial statements as at and for the year ending 30 June 2024, save for the first time in the current period, the significant judgements made by management in applying the Group's accounting policies and the key sources of estimation uncertainty were the same as those that applied to the consolidated financial statements as at and for the year ended 30 June 2024.

Restatement of comparatives

As a result of dismantling the Financial Services Segment (refer *Discontinued operations and disposal group held-for-sale* note) the prior period comparatives have been restated to reflect the current segmental structure.

Significant commitments

As of 31 December 2024, R102 million of the approved R183 million was spent on the development of two additional fuel tanks at the Richards Bay facility which is estimated to be commissioned in July 2025.

Fair value of financial instruments

The Group's investments of R1 174 million (H1 2024: R1 078 million) include R74 million (H1 2024: R79 million) recorded at amortised cost, R1 082 million (H1 2024: R976 million) recorded and measured at fair values using quoted prices (Level 1) and R18 million (H1 2024: R22 million) recorded and measured at fair value using factors not based on observable data (Level 3). Fair value gains on Level 3 investments recognised in the income statement total Rnil (H1 2024: Rnil).

Analysis of investments at a fair value not determined by observable market data

^{*} Prior period comparatives reflect continuing operations only.

The carrying values of all financial assets and liabilities approximate their fair values, with the exception of interest-bearing borrowings of R32 billion whose carrying value is R33 billion.

condensed consolidated financial statements continued

Significant hedge accounting

The Group makes use of fixed-for-fixed, USD / GBP pair, cross currency swaps (CCS) in order to mitigate and hedge Group currency risk. The designated hedged instrument is a US\$-denominated Reg S / 144A senior unsecured five-year bond of USD800 million at a fixed coupon rate of 3.625%, issued by The Bidvest Group (UK) Plc and guaranteed by The Bidvest Group Limited. The primary purpose of the bond is to secure long term funding for the Group's foreign acquisitions, whose functional currencies are GBP. The Board of Directors concluded that an effective cashflow hedging relationship exists and IFRS 9 hedge accounting has been applied.

On 16 October 2025 The Bidvest Group (UK) Plc made a successful tender offer to repurchase USD322.0 million of the USD800 million senior unsecured five-year bonds listed on the London Stock Exchange (LSE). The repurchase was settled on 1 November 2024 for USD316.4 million (R5.5 billion), a 1.75% discount to par value equating to USD5.6 million (R99 million). The tender offer was financed by a GBP230 million (R5.2 billion) draw-down of the Group's existing multi-currency revolving credit facility (MRCF). As a consequence of the successful tender offer the hedging relationship on CCSs with a nominal value of USD322.0 million, with a maturity date of 23 September 2026, became ineffective and were terminated early on 31 October 2024, for which the Group received proceeds of USD17.8 million (R313 million). The ineffective relationship resulted in a net accumulated gain of GBP708 thousand (R16 million) being recycled from the cash flow hedge reserve via consolidated other comprehensive income to the consolidated income statement, GBP17.2 million (R394 million) accumulated gain in fair value, GBP2.4 million (R55 million) accumulated interest charge and GBP14.0 million (R323 million) USD spot rate accumulated translation losses on borrowings.

Business combinations

Net acquisition of businesses, subsidiaries, associates and investments

Effective 1 July 2024 Bidvest Noonan (UK) Limited acquired 100% of the share capital and claims in the Nexgen Facilities Services (Nexgen) group of companies, comprising principally of Just Ask Estate Services Limited and Nextgen Facilities Services Limited. Just Ask Services is a specialist facilities services supplier, providing services such as cleaning, grounds maintenance and Waking Watch Fire Safety services primarily to public sector housing associations. Nexgen provides concierge and support services to public and private sector organisations across a range of sectors, including education, commercial property, offices, leisure, local government and healthcare. Nexgen has a strong presence in the City of London where it supports prestigious universities, workplaces, managing agents and some of the city's key landmarks. Nexgen was acquired for GBP56 million (R1.3 billion) using the Group's existing cash resources and facilities. The acquisition advances the Group's exposure to the UK facilities management sector and bolsters existing concierge and support services business.

Effective 1 July 2024 Personnel Hygiene Services Limited acquired 100% of the share capital and claims in Countrywide Healthcare Supplies Holdings Limited (Countrywide). Countrywide is a specialist supplier of healthcare and janitorial supplies to the UK care sector focusing on consumables and medical equipment. Countrywide was acquired for GBP36 million (R817 million) using existing cash resources and facilities. The acquisition broadens the Group's access to the UK hygiene services sector.

Effective 1 July 2024 Bidvest Services Holdings (Pty) Limited acquired 100% of the share capital and claims in Synerlytic Group Holdings (Pty) Limited (WearCheck) is a group of companies which trade primarily as WearCheck and WearCheck Water Laboratories. WearCheck is a leading condition monitoring specialist operating on the African continent, processing in excess of 800 000 samples per annum. Through its 14 world class laboratories, WearCheck serves the mining, earthmoving, industrial, transport, shipping, aviation and electrical industries through the scientific analysis of used oil, fuels, coolants and greases. WearCheck Water Laboratories provide water testing services including, physico-chemicals, heavy metals, organic, inorganic and microbial water analysis to individuals, water industry consultants, water boards, water treatment companies, mines, wet industries, automotive manufacturers, amongst others as well as other laboratories. WearCheck was acquired for R784 million using existing cash resources and facilities. The Group acquired WearCheck in order to establish a presence in the Testing, Inspection, and Certification (TIC) sector.

During the period the Group also made the following less significant "bolt-on" acquisitions, which were funded from existing facilities and cash resources:

Effective 1 July 2024 Bidvest Automotive Holdings (Pty) Limited acquired 100% of the share capital and claims in Dekra Automotive (Pty) Limited (Dekra). Dekra operates a South African national automotive test centre network of over 43 vehicle inspection test centres with a workforce of over 550 people providing its core products of Certificate of Roadworthiness and Technical Inspection Checks. Dekra was acquired for R405 million using existing cash resources and facilities. Dekra was acquired to broaden the Group's automotive services offering and establish a presence in the TIC sector.

Effective 1 September 2024 Bidvest Automotive Holdings (Pty) Limited acquired 100% of the share capital and claims in Serco (Pty) Limited (Serco). Serco is a leading South African insulated and dry freight body building company, which employs more than 400 staff at branches in Durban, Johannesburg, Cape Town and Gqeberha. Serco was acquired for R224 million to broaden the Group's automotive services offering.

Effective 1 July 2024 Bidvest Branded Products Holdings acquired 100% of the share capital and claims in Buena Vista Trading 82 (Pty) Limited t/a Spec Systems (Spec Systems). Spec Systems is a label printer and barcode scanning specialist offering turnkey auto ID solutions, self adhesive labels and thermal transfer ribbons throughout Africa. Spec Systems has a South African national footprint offering multiple brands to the market including world class technical support. Spec Systems complements the Group's existing thermal and label printer business Rotolabel, and was acquired for R65 million.

ε SGD6 million (R85 million) was part settlement of the deferred consideration relating to the prior year acquisition of Rental Hygiene Services Pte Ltd.

condensed consolidated financial statements continued

The fair values of the assets and liabilities have been determined provisionally for the acquisition of the Nexgen Facilities Services (Nexgen) group of companies and resulted in the identification of definite life customer relationship intangible assets for Just Ask Estate Services in the amount of GBP3.8 million (R87 million), definite life customer relationship intangible assets for Nexgen in the amount of GBP3.6 million (R83 million) and indefinite life Brand intangible assets for Just Ask Estate Services of GBP8.9 million (R205 million). The Multi-Period Excess Earnings Method (MPEEM), using cash flows attributable to the customer related intangible asset, was used to value Customer Relationships, which were estimated to have Remaining Useful Lives (RUL) of 15 years. An existing customer attrition rate of 13.3% was applied to forecasted existing customer revenues. A Weighted Average Cost of Capital (WACC) in a range of 14.7% to 16.7%, including a premium of 0.25%, was applied in the valuation. The Relief from Royalty Method has been utilised to determine the fair value of the Just Ask Estate Services brand, which has been in existence for more than 20 years and therefore concluded to have an indefinite future life. The use of a royalty rate of 2.5% was informed by market data for similar transactions that occurred in the last five years and the profitability of Nexgen. A portion of the residual Goodwill is supported by the identified trained and assembled workforce.

The fair values of the assets and liabilities have been determined provisionally for the acquisition of Countrywide Healthcare Supplies Holdings Limited (Countrywide) and resulted in the identification of definite life customer relationship intangible assets in the amount of GBP8.1 million (R187 million). The MPEEM, using cash flows attributable to the customer related intangible asset, was used to value Customer Relationships, which were estimated to have RULs of 20 years. An existing customer attrition rate of 10.0% was applied to forecasted existing customer revenues. A WACC of 13.8%, including a company specific risk premium of 1.5%, was applied in the valuation. No value was assigned to the Countrywide brand. A portion of the residual Goodwill is supported by the identified trained and assembled workforce.

The fair values of the assets and liabilities have been determined provisionally for the acquisition of WearCheck and resulted in the identification of definite life customer relationship intangible assets in the amount of R116 million and indefinite life Brand intangible assets of R114 million. The MPEEM, using cash flows attributable to the customer related intangible asset, was used to value Customer Relationships, which were estimated to have a RUL of 15 years. An existing customer attrition rate of 13.3% was applied to forecasted existing customer revenues. A WACC in a range of 14.1% to 15.4% was applied in the valuation. The Relief from Royalty Method has been utilised to determine the fair value of the WearCheck brand, which has been in existence for more than 20 years and therefore concluded to have an indefinite future life. The use of a royalty rate of 3.0% was informed by market data for similar transactions that occurred in the last five years and the profitability of WearCheck. A portion of the residual Goodwill is supported by the identified trained and assembled workforce.

The fair values of the assets and liabilities have been determined provisionally for the Dekra acquisition and resulted in the identification of definite life non-contractual customer relationship intangible assets in the amount of R50 million, contractual customer relationship intangible assets of R8 million. The MPEEM, using cash flows attributable to the customer related intangible assets was used to value Customer Relationships. Non-contractual customer relationships were estimated to have a Remaining Useful Life of 13 years and an existing customer attrition rate of 15.0%. Contractual customer relationships were estimated to have an RUL of 4 years and existing customer attrition rate of 0.0%. Discount rates of between 19.3% and 21.5%, which includes a company specific premium of between 0.0% and 1.0%, were applied to forecasted cash flows arising from customer relationships. The Relief from Royalty Method has been utilised to determine the fair value of the right to use the Dekra brand. The Group has the right to use the Dekra brand in South Africa for a maximum period of 5 years. The use of a pre-tax royalty rate of 1.6% (adjusted for licensing fees payable) was informed by market data for similar transactions with similar profitability to Dekra. A portion of the residual Goodwill is supported by the identified trained and assembled workforce.

The fair values of the assets and liabilities have been determined provisionally for the Serco acquisition and resulted in the identification of definite life customer relationship intangible assets in the amount of R9 million and brand intangible assets of R63 million. The MPEEM, using cash flows attributable to the customer related intangible assets was used to value Customer Relationships. Customer relationships were estimated to have RULs of 6 years and an existing customer attrition rate of 33.3%. Nominal discount rates of between 16.6% and 18.6%, including a premium of 1.0%, were applied to forecasted cash flows arising from customer relationships. The Relief from Royalty Method has been utilised to determine the fair value of the Serco brand, which is well established and has been in existence since 1981 and therefore concluded to have an indefinite life. The use of a pre-tax royalty rate of 1.5% was informed by market data for similar transactions with similar profitability to Serco. A portion of the residual Goodwill is supported by the identified trained and assembled workforce.

Goodwill arose on the acquisitions as the anticipated value of future cash flows that were taken into account in determining the purchase considerations exceeded the net assets acquired at fair value. The acquisitions have enabled the Group to expand its range of complementary products and services and, as a consequence, have broadened the Group's base in the market place.

Discontinued operations and disposal group held-for-sale

During the period the Financial Services segment was dismantled and a formal process was initiated to dispose of Bidvest Bank and FinGlobal. The remaining Financial Services short-term insurance businesses, which focus primarily on vehicle insurance cover and related value added products (VAPS), were transferred to the Automotive segment. Bidvest Bank is a full service bank offering customers foreign exchange, fleet, business and personal financial solutions. FinGlobal is a cross-border financial services company providing premier financial emigration services to South Africans all over the world. Bidvest Bank and FinGlobal constituted the majority of the Financial Services Segment.

Towards the end of June 2023, the Group entered into a process to dispose of 100% of its shareholding and claims in Bidvest Life Limited (BLL). BLL, formerly part of the Financial Services segment, is a licensed life assurance company and registered financial service provider specialising in income protection, disability, critical illness and life cover. Despite attracting a number of potential buyers BLL was not sold during the period, however it continues to be actively marketed for sale at a price which is reasonable to its fair value. BLL has been disclosed as a disposal group held-for-sale since 30 June 2023.

The relevant requirements of IFRS 5 were met for Bidvest Bank and FinGlobal to be classified and included with Bidvest Life as a disposal group held-for-sale and for Bidvest Bank, FinGlobal and Bidvest Life, which constitute a group of cash generating units, to be collectively classified as discontinued operations from 1 July 2024.

Bidvest Bank and FinGlobal were not previously classified as a disposal group held-for-sale. Bidvest Bank, FinGlobal and Bidvest Life were not previously classified as discontinued operations. The comparative consolidated income statement and consolidated statement of cash flows and financial reporting were restated to show the discontinued operation separately from continuing operations. The disposal group is measured and presented at the lower of carrying amount and fair value less cost to sell.

On 12 December 2024 Access Bank Plc (Access Bank) agreed to acquire 100% of the share capital and claims in Bidvest Bank Holdings Limited, subject to regulatory approvals for R2.8 billion. Access Bank, domiciled in Nigeria, is a full-service commercial bank with over 60 million customers globally, through a network of over 700 branches in 23 countries across three continents. Regulatory approvals are expected within the next six months.

On 11 December 2024 Momentum Strategic Investments (Pty) Limited agreed to acquire 100% of the share capital and claims in FinGlobal Migration (Pty) Limited, subject to regulatory approvals and other procedural conditions.

The Group has received binding offers from existing life insurers for 100% of the share capital of and claims in Bidvest Life.
