COMMENTARY

Group profile and strategy

Ascendis Health is a South African-based global health and care group which owns a portfolio of market-leading brands for humans, plants and animals.

The brands are housed in the Pharma-Med, Consumer Brands and Phyto-Vet divisions, with revenue diversified across products, channels, geographic regions and currencies.

- Pharma-Med: prescription and over-the-counter (OTC) drugs; medical devices
- Consumer Brands: nutraceuticals; complementary medicines; derma-cosmeceuticals and sports nutrition
- Phyto-Vet: plant and animal health and care.

The group's strategy is to complement organic growth by acquiring bolt-on companies in South Africa, acquiring international platform and complementary businesses, and extracting synergies from these acquisitions.

The international acquisitions of pharmaceutical manufacturer Remedica in Cyprus and leading European sports nutrition business Scitec early in the financial year have transformed Ascendis Health into a global healthcare business. Earnings generated outside South Africa in the reporting period have grown to 60% of total earnings.

Financial performance

Note: The group is reporting normalised results which have been adjusted for once-off acquisition costs in the current and prior financial years.

Group revenue from continuing operations increased by 64% to R6.4 billion (2016: R3.9 billion), with acquisitive growth of R2.3 billion from Remedica and Scitec (consolidated for 11 months) and Sun Wave Pharma and Cipla Animal Health (consolidated for one month).

Revenue has grown at a compound rate of 81% and EBITDA by 102% per annum since the listing of Ascendis Health in 2013.

Foreign revenue increased by 497% to R2.8 billion and comprises 43% (2016: 12%) of the group's total sales. Products are currently exported to over 120 countries globally.

The group's gross margin strengthened by 380 basis points to 43.7% owing to a higher contribution from prescription drugs following the acquisition of Remedica in August 2016 and strong performances from the high-end wellness brand Solal and the medical devices business in South Africa.

Earnings from continuing operations before interest, tax, depreciation and amortisation (EBITDA), on a normalised basis, increased by 78% to R1 085 million, with the EBITDA margin improving by 130 basis points to 16.9% (2016: 15.6%).

Normalised operating profit rose by 60% to R857 million. Headline earnings on a normalised basis increased by 91% to R645 million, with normalised HEPS 29% higher at 156.4 cents. The weighted average number of shares in issue increased by 48% during the reporting period, mainly in relation to the rights issue and vendor placement in August 2016 for the acquisitions of Remedica and Scitec.

Cash generated from operating activities increased to R787 million with a cash conversion rate of 73%.

The directors have elected not to declare a final dividend and to retain cash to fund complementary acquisitions. An interim dividend of 11 cents per share was declared in March 2017.

Pharma-Med, which includes the acquisition of Remedica, experienced better than expected turnover and EBITDA growth. The EBITDA margin of the division improved despite the impact of foreign exchange losses from its hedged positions resulting from the Rand strengthening approximately 11% against its main trading partners. Farmalider and Remedica's focus on higher margin sales resulted in a strong improvement in the EBITDA margin of the Pharma-Med division. The division continues to benefit from synergy projects underway in Europe and South Africa.

Consumer Brands benefited from the acquisitions of Scitec and Sun Wave Pharma but EBITDA margins were negatively impacted by external factors. These include increasing global whey protein prices which reached a three year high and challenges in Nigeria affecting the direct selling business. Some of the market-leading wellness brands including Solal showed double digit growth in South Africa.

Phyto-Vet experienced growth in terms of both revenue and EBITDA aided by the biosciences business and the expansion of Afrikelp into international markets. EBITDA margins improved as a result of stricter cost control and focus on higher margin sales.

Acquisitions

International

Remedica has been successfully integrated, with ongoing synergy projects within the Pharma-Med division covering cross-selling, procurement, research and development, new product development and production. Remedica generated revenue of R982 million in the 11 months since acquisition, with profit before interest after tax (PBIAT) of R243 million being ahead of management's expectations.

Scitec reported sales of R1 247 million with PBIAT of R121 million. Margins came under pressure from higher global whey protein prices which the business was unable to pass on to customers. Decisive measures have been taken to improve profitability, including appointing a new head of the business, initiating cost savings, focusing on new sales channels, expanding into new markets and developing a strong new product development pipeline.

Sun Wave Pharma, a leading OTC and nutraceuticals business in Romania, was acquired with effect from 1 June 2017. The acquisition provides entry into the high-growth Romanian market, allows for duplication of the successful business model to other selected markets in the central and eastern European region, with sourcing, production, research and development, and cross-selling opportunities within Consumer Brands.

South Africa

The acquisition of the southern African animal health businesses from Cipla India creates access to the attractive veterinary pharma market, with high margin products in strong growth segments. This is supported by the opportunity to increase export asles and create synergies with Phyto-Vet's existing African network. The acquisition was effective from 1 June 2017.

Outlook for 2018 financial year

The group will continue to pursue its proven strategy of organic, acquisitive, synergistic and international growth to create shareholder value.

Projects have been initiated to enhance organic growth and EBITDA margins. These include consolidating the medical devices division in South Africa focusing on cost efficiencies across the group, in particular in the sports nutrition businesses, rationalising manufacturing facilities in South Africa and investing in new product development and launches. Management is targeting to improve the EBITDA margin from 17% to 18% over the medium term. Plans are being implemented to maximise free cash generation and reduce gearing levels.

The group's acquisition strategy in 2018 will be focused on buying complementary bolt-on businesses, mainly in the higher growth economies in central and eastern Europe, and South Africa, while targeting fast growing health and care market seemments.

*Other reserves include a Share-based payment reserve (R13.3 million) that has been reclassified to retained earnings during the 2017 financial period. Also included in this reserve is a Farmalider Statutory reserve (R49.4 million). In terms of Spanish legislation a portion of the period's profits should be recognised in a non-distributable reserve.

During the 2017 financial period Ascendis raised equity capital by means of a Rights Offer. Other reserves also include the difference between the R22.00 subscription price and the presiding fair value on the date of issue.

These summarised consolidated group financial results as at 30 June 2017 comprise of the Company and its subsidiaries (together referred to as the Group) and the Group's interest in equity accounted investments. The audited annual results can be obtained from the Ascendis website (https://ascendishealth.com/investor-relations/financial-results).

Going concern

The directors consider that the Group has adequate resources to continue operating for the foreseeable future and that it is therefore appropriate to adopt the going-concern basis in preparing the Group's financial statements. The directors have satisfied themselves that the Group is in sound financial position and that it has access to sufficient borrowing facilities to meet its foreseeable cash requirements.

Basis of preparation

The annual consolidated financial statements are prepared in accordance with the requirements of the JSE Limited Listings Requirements for annual reports, and the requirements of the Companies Act of 2008 applicable to annual financial statements. The Listings Requirements require annual reports to be prepared in accordance with the framework concepts and the measurement and recognition requirements of International Financial Reporting Standards ("IFRS") and the SAICA Financial Reporting Guides as issued by the Accounting Practices Committee and Financial Pronouncements as issued by the Financial Reporting Standards Council and to also, as a minimum, contain the information required by IAS 34 Interim Financial Reporting. The accounting policies applied in the preparation of the annual consolidated financial statements are in terms of International Financial Reporting Standards and are consistent with those accounting policies applied in the preparation of the previous consolidated annual financial statements.

The summary consolidated financial statements for the year ended 30 June 2017 have been prepared under the supervision of Chief Financial Officer Kieron Futter CA(SA) and audited by PricewaterhouseCoopersInc. The auditor expressed an unmodified opinion on the annual financial statements from which these summary consolidated financial statements were derived. A copy of the auditors report on the summarised consolidated financial statements is available for inspection at the Company's registered office.

The auditors report does not necessarily report on all information contained in this announcement. Any reference to pro forma or future financial information included in this announcement has not been review or reported on by the auditors. Shareholders are advised that in order to obtain a full understanding of the nature of the auditors' engagement they should obtain a copy of that report together with the accompanying financial information from the Companies registered office.

The annual financial statements have been prepared on the historical cost basis, except for the measurement of certain financial instruments and land and buildings at fair value. The financial statements are prepared on the going-concern basis using accrual accounting.

Items included in the annual financial statements of each entity in the Group are measured using the functional currency of the primary economic environment in which that entity operates. The annual financial statements are presented in Rand. This represents the presentation and functional currency of Ascendis. The Group owns the following entities which operate in primary economic environments which are different to the Group:

- Farmalider Spain
- Akusa United States of America
- Nimue UK United Kingdom
- Heritage Resources Limited Isle of Man
- Remedica Cyprus
- Scitec Hungary
- Ascendis Wellness Romania
- Ascendis Australia Australia
- Ascendis International Malta

For each of these entities a functional currency assessment has been performed. Where the entity has a functional currency different to that of the Groups presentation currency they are translated upon consolidation in terms of the requirements of TPRS.

Judgement and estimates

In preparing these annual financial results, management made judgements, estimates and assumptions that affect the application of accounting policies and the reported amounts of assets, liabilities, income and expenses.

This note provides an overview of the areas that involved a higher degree of judgement or complexity, and of items which are more likely to have the actual results meaterially different from estimates. Detailed information about each of these estimates and judgements is included in the notes to the financial statements.

Significant estimates and judgements:

- The useful lives and residual values of property, plant and equipment and intangible assets.
- Impairment testing and allocation of cash-generating units.
- Estimation of fair value in business combinations.
- Estimated goodwill impairment.
- Estimation of fair values of land and buildings.
- Control assessments of investments in other entities acquired.

1. Group Segmental Analysis

Ascendis Health owns a portfolio of brands within three core health care areas, namely Consumer Brands, Pharma-Med and Phyto-Vet. Within these healthcare areas the Group has five reportable segments.

The Group executive committee (EXCO) considers the three core health care areas, as well as the reportable segments to make key operating decisions and assess the performance of the business. The EXCO is the Group's chief operating decision maker.

The reportable segments were identified by considering the nature of the products, the production process, distribution channels, the type of customer and the regulatory environment in which the business units operate. In addition to the above, similar economic characteristics such as currency and exchange regulations, trade zones and the tax environment were also considered to incorporate and assess the different markets in which the Group operate. The reportable segments included in the Group's divisions are:

- Consumer Brands (human health), incorporating Sports Nutrition, Skin and all of the Ascendis Over The Counter (OTC) and Complementary and Alternative Medicines Consumer Brands products. This division includes two reportable segments:
 - Consumer Brands Africa segment: Operating predominantly in the South African market.
 - Consumer Brands Europe segment: Operating predominantly in the European market.
- Phyto-Vet (animal and plant health), incorporating all of the Ascendis animal and plant health and care products.
- Pharma-Med (human health), incorporating Ascendis' pharmaceutical and medical devices products. This division includes two reportable segments:
 - Pharma-Med Africa segment: Operating predominantly in the South African market.
 - Pharma-Med Europe segment: Operating predominantly in the European market.

Restatement

The Group acquired large international operations during the 2017 financial period. The businesses acquired operate predominantly in the European market, which is a substantially different economic and regulatory environment from the South African market. This has resulted in a significant change in the Group's internal environment and subsequently the reportable segments. Individual operating segments previously included in Consumer Brands, are now included in Consumer Brands Africa and Consumer Brands Europe. The Pharma-Med Europe segment was called International in the 2016 Annual financial statements.

There has been no inter-segment revenue during the financial period. All revenue figures represent revenue from

external customers.

The revenue from discontinued operations relates to the Consumer Brands Africa segment.

The Group has an expanding international footprint and currently exports products to 120 countries, mainly in Africa and Europe.

The revenue presented by geographic location represents the domicile of the entity generating the revenue.

51% of the Group's revenue is generated through the wholesale and retail market (2016: 46%). In this market, 4% (2016: 6%) of the total Group revenue is derived from a single customer and 12% of the Group's revenue is generated from government institutions (local and international).

The Group evaluates the performance of its reportable segments based on EBITDA (earnings before interest, tax, depreciation and amortisation). The financial information of the Group's reportable segments is reported to the EXCO for purposes of making decisions about allocating resources to the segment and assessing its performance. The percentage disclosed represents the EBITDA/sales margin.

2. Earnings per share, Diluted earnings per share and Headline earnings per share

The calculation of headline earnings per share is based on the profit attributable to equity holders of the parent, after excluding all items of a non-trading nature, divided by the weighted average number of ordinary shares in issue during the year. The presentation of headline earnings is not an IFRS requirement, but is required by JSE Listings Requirements and Circular 2 of 2015.

Weighted average number of shares in issue is calculated as the number of shares in issue at the beginning of the period, increased by shares issued during the period weighted on a time basis for the period during which they have participated in the profit of the Group. Shares which are held by a subsidiary company as treasury shares have been adjusted on a time basis when determining the weighted average number of shares in issue.

The Group has determined no instruments exist in the period that will give rise to the issue of ordinary shares that results in a dilutive effect. Based on this assessment, basic earning per share also represents diluted earnings per share.

(c) Normalised headline earnings per share

Since Ascendis Health is a health and care company and not an investment company, normalised headline earnings is calculated by excluding amortisation and certain costs from the Group's earnings. Costs excluded for normalised headline earnings purposes include restructuring costs to streamline, rationalise and structure companies in the Group. It also includes the cost incurred to acquire and integrate the business combinations into the Group and the listed environment.

3. Events after reporting period Debt facilities

Post year end, Ascendis increased their existing revolving credit facilities as follows:

- R50 million from Nedbank. This facility bears interest at a rate of 8.25%;
 R150 million from ABSA. This facility bears interest at a rate of 8.75% and is repayable on 28 November 2017.

Treasury shares

The Group also disposed of 3 425 202 treasury shares at a transaction price equal to the 30 day volume weighted average price of the share ("VWAP").

Business Combinations

During the period Ascendis acquired the following businesses:

- Remedica Group 100% - Scitec Group 100% - Cipla Group 100% - Sun Wave Pharma Group 100% - Ortho-Xact 100%

78 % (Obtained effective control) - Juniva Proprietary Limited

A purchase price allocation has been performed on all business acquisitions which have been included in the financial results with the exception of Cipla and Sun Wave Pharma. Due to the timing of these acquisitions being close to year-end, a preliminary purchase price allocation has been performed.

The following table illustrates the consideration paid and net assets for each material subsidiary acquired during the year. All assets and liabilities are measured at fair value on the date of acquisition. No goodwill amount recognised is deductible for tax purposes. The 2016 comparative period has been restated as a result of a measurement period adjustment, for more information refer to the restatement note.

Ascendis completed three new platform acquisitions. These acquisitions will allow Ascendis to significantly grow its European footprint which is currently serviced by Farmalider S.A. The establishment of a sizeable European platform will support further international growth and expansion into new geographies both through acquisitions and organically as the newly acquired international sales and distribution platforms can be utilised to channel existing Ascendis products. Ascendis will contribute favourably towards the growth of both Remedica and Scitec, as synergies are achieved in shared services, cross-licensing of pharmaceutical dossiers, product manufacturing and established routes to the European and developing markets.

The geographical diversification offered by these transactions and their predominant invoicing in US Dollar and Euro will create a natural Rand hedge. The conclusion of these transactions ensures that Ascendis maintains its defensive segment mix of over-the-counter and pharmaceutical operations while enhancing diversification of its sales portfolio across products, channels, geographies and currencies. The international growth, synergies and natural hedge contribute to the goodwill amount recognised as part of the Remedica, Scitec and Sun Wave Pharma acquisition.

International platform acquisition - The Remedica Group (1 August 2016)
Remedica has been operating for over 50 years and is dedicated to the development, production and sale of high
quality, safe and efficacious generic pharmaceuticals. Remedica provides an international platform with its diversified
portfolio of products, markets and clients to transform the Ascendis Pharma-Med Europe seement.

The Group has acquired the entire share capital of Remedica, a pharmaceutical company based in Cyprus. The purchase consideration of between EUR261.5 million and EUR335 million (R3 988 million - R5 210.2 million) was settled as follows:

- EUR170 million to be paid on completion which assumes a target working capital of EUR50 million and at least EUR5 million of surplus cash earmarked for future acquisitions.
- EUR90 million deferred for three years (present value of EUR81.175 million based on a pre-discount rate of 3.5%); and
- EUR1.5 million to be paid in share issued.
- an amount to be determined based on the average EBITDA achieved for the three financial years post completion of the Remedica transaction subject to certain targets being achieved with the total payment limited to EUR75 million.

R28 million of the business combination costs relates to the Remedica acquisition.

The revenue included in the statement of comprehensive income since 1 August 2016 contributed by Remedica was R982.4 million. Remedica also contributed profit after tax of R243.0 million over the same period.

If the subsidiary was acquired on the first day of the financial year, revenue and profits for the year would have been $R1\ 072.1$ million and R248.2 million respectively.

International platform acquisition - The Scitec Group (1 August 2016)

The acquisition of Scitec complements Ascendis' Consumer Brands product strategy, as it provides an international platform in the sports nutrition and nutraceutical industry. Scitec is focused on the marketing, production and distribution of a wide variety of sports nutrition products targeted at strength training, functional fitness and well-being forming part of the Consumer Brands Europe segment.

The Group has acquired the entire share capital of Scitec a European sports nutrition company. The purchase
