Reviewed condensed consolidated provisional financial results for the year ended 28 February 2018

Highlights

Group revenue of R2,5 billion
Headline earnings per share ("HEPS") of 180,7 cents
Contribution from operations' margin 14,3%
NAV per share of 857 cents
Final dividend per share of 42,0 cents
Return on net operating assets 21,8%
Net debt:equity ratio improved from 42,4% in August 2017 to 37,0%

Commentary

BASIS OF PREPARATION

The reviewed condensed consolidated provisional financial results ("financial statements") for the year ended 28 February 2018 ("year") contain, as a minimum, the information required by IAS 34: Interim Financial Reporting and have been prepared in accordance with the Frameworks Concepts and measurement and recognition requirements of the International Financial Reporting Standards ("IFRS"), the SAICA Financial Reporting Guides as issued by the Accounting Practices Committee, JSE Listings Requirements and in the manner required by the South African Companies Act No. 71 of 2008, as amended. The accounting policies and method of computation applied in preparation of the financial statements are in accordance with IFRS and are consistent with those applied in the audited annual financial statements for the year ended 28 February 2017.

The financial statements have been prepared under the supervision of the Chief Financial Officer ("CFO"), PGS de Wit CA(SA).

INTRODUCTION

The group continues to deliver satisfactory results supported by its diversification strategy despite very difficult trading conditions experienced during the financial year.

The group results were impacted by major political events that severely impacted business confidence in the first half of the year. Political uncertainty prevailed for the remainder of 2017 and an economic slow-down during the last quarter of 2017 exacerbated the operating climate.

FINANCIAL RESULTS

Headline earnings per share declined by 8,0% from 196,4 cents to 180,7 cents per share. Mineral producing operations across all regions as well as the Western Cape aggregates business delivered solid results, while the impact of the slow-down in the last few months of 2017 was felt more strongly in KwaZulu-Natal and southern Gauteng where the operations of Glen Douglas and Clinker experienced reduced volumes.

The net debt:equity ratio increased from 19,8% in the prior year to 37,0% in the current year, mainly due to a new R300,0 million amortising five-year term facility introduced to purchase the Investec securities, to fund the offer to creditors in terms of the business rescue plan and provide working capital requirements for Afrimat Demaneng Proprietary Limited (previously Diro Manganese Proprietary Limited) and Diro Iron Ore Proprietary Limited ("Demaneng").

OPERATIONAL REVIEW

All operating units remain strategically positioned to deliver excellent service to the group's customers, whilst acting as an efficient hedge against volatile local business conditions. The product range is well diversified to include construction materials such as aggregates and concrete based products as well as industrial minerals such as limestone, dolomite and silica. The group added bulk commodities to an already diversified offering, by entering the iron ore industry.

The business experienced a year of labour stability as a result of various human resource interventions to create an amicable, mutually beneficial climate. The group is committed to creating and sustaining harmonious relationships in the workplace and addressing issues proactively.

The Aggregates and Industrial Minerals segment delivered solid results in particular the mineral producing operations across all regions as well as the Western Cape aggregates business. The impact of the slow-down in the last months of 2017 was felt more strongly in KwaZulu-Natal and southern Gauteng where the operations of Glen Douglas and Clinker experienced reduced volumes in the last quarter of the 2017 calendar year. The start of 2018 saw demand increase, but not sufficiently to compensate for the poor demand of the last quarter.

The acquisition of the Emfuleni Clinker Ash Dump, situated in Vereeniging and in close proximity to Afrimat's clients, will ensure an additional three to four years to the lifespan for both Clinker Supplies

Proprietary Limited ("Clinker") and SA Block Proprietary Limited. The Clinker management team continues to investigate further options in order to secure additional clinker resources for the group.

The Mozambican operations experienced renewed activity in January 2018 when an order to supply the construction materials to the resettlement village in Palma was received. Afrimat has reestablished operations and was at full production during the month of May 2018. The Final Investment Decision for the main LNG project has not yet been made, but it is expected to be made during 2018 and Afrimat is well positioned to tender on requirements.

The Concrete Based Products segment was impacted by difficult market conditions. The company's strategy remains focused on assets with a competitive advantage.

Afrimat created a Commodities segment by entering the iron ore industry. It concluded an agreement to purchase 60% of Demaneng, as well as a cession and delegation agreement with Investec Limited to purchase all of its security. The acquisition became unconditional following section 11 approval by the Department of Mineral Resources ("DMR"), effective 30 June 2017.

Furthermore, Afrimat concluded a sale of shares and claims agreement with the minorities of Demaneng to acquire the remaining 40% stake, effective 31 July 2017 (refer to note 14 for further information).

As a direct result of much improved commodity prices, it was decided to accelerate the ramp-up of Demaneng. Expenses relating to the ramp-up increased substantially in line with the accelerated production. The mine reached its design production capacity of 1 million tonnes per annum at the end of February 2018. All processing equipment has been commissioned, together with the commissioning of a new load out facility which enables Afrimat to load trains on the Sishen-Saldanha railway line.

BUSINESS DEVELOPMENT

New business development remains a key component of the group's growth strategy. The dedicated business development team continues to successfully identify and pursue opportunities in existing markets, as well as in anticipated new high growth areas in southern Africa.

ACQUISITION

Following the finalisation of the agreement to purchase 60% of Demaneng from Diro Resources Proprietary Limited, as well as a cession and delegation agreement with Investec Limited, the company concluded a sale of shares and claims agreement with the minorities of Demaneng to acquire the remaining 40% stake in Demaneng, effective 31 July 2017.

Prior to Afrimat's acquisition, Demaneng's operations were halted as a consequence of it being under financial distress and was accordingly placed into formal business rescue on 7 June 2016. Afrimat Demaneng Proprietary Limited has filed a notice of substantial implementation of its business rescue plan with the Companies and Intellectual Property Commission, confirming that it exited business rescue on 16 August 2017 and commenced with operations and the mining and delivery of iron ore.

For further details, refer to a SENS announcement published by the company on 22 August 2017.

B-BBEE

Existing BEE shareholders and the Afrimat BEE Trust in aggregate hold 30,25% of Afrimat's issued shares (excluding treasury shares and mandated investments).

Notwithstanding the fully empowered ownership platform in line with the Mining Charter requirements, the group remains dedicated to enhancing all aspects of B-BBEE on an ongoing basis.

DIVIDEND

The group's dividend policy is to maintain a 2,75 times dividend cover. A final dividend of 42,0 cents per share (2017: 50,0 cents) for the year was declared on 23 May 2018. The dividend payable to shareholders who are subject to dividend tax is 33,6 cents per share (2017: 40,0 cents per share). Total dividends for the year amount to 62,0 cents per share (2017: 70,0 cents per share).

PROSPECTS

The group is well positioned to capitalise on its strategic initiatives, foresees continued growth from an excellent asset base, expects further expansion of its range of unique products and turnaround initiatives of selective acquisitions to deliver.

Operational efficiency initiatives aimed at expanding volumes, reducing costs and developing the required skill levels across all employees, remains a key focus in all operations.

Afrimat expects the current business climate to continue with the group's future growth driven by the successful execution of its proven strategy, recent acquisitions and a wider product offering to the market.

AUDITOR'S REVIEW

This report has been reviewed by the company's auditor, PricewaterhouseCoopers Inc. Their unmodified opinion is available for inspection at the company's registered office. Their review was conducted in accordance with ISRE 2410: Review of interim financial information performed by the independent auditor of the entity.

The auditor's report does not necessarily report on all of the information contained in this report. Shareholders are therefore advised that in order to obtain a full understanding of the nature of the auditor's engagement they should obtain a copy of the auditor's report together with the accompanying financial information, from the issuer's registered office.

On behalf of the board

MW von Wielligh Chairman

AJ van Heerden Chief Executive Officer

23 May 2018

DIVIDEND DECLARATION

Notice is hereby given that a final gross dividend, No. 22 of 42,0 cents per share, in respect of the year ended 28 February 2018, was declared on Wednesday, 23 May 2018.

There are 143 262 412 shares in issue at reporting date, of which 6 654 039 are held in treasury. The total dividend payable is R60,2 million (2017: R71,6 million).

The board has confirmed by resolution that the solvency and liquidity test as contemplated by the Companies Act, No. 71 of 2008, as amended, has been duly considered, applied and satisfied. This is a dividend as defined in the Income Tax Act, 1962, and is payable from income reserves. The South African dividend tax rate is 20,0%. The dividend payable to shareholders who are subject to dividend tax and shareholders who are exempt from dividend tax is 33,6 cents and 42,0 cents per share, respectively. The income tax number of the company is 9568738158.

Relevant dates to the final dividend are as follows:

Last day to trade cum dividend

2. Impairment of property, plant and equipment

Impairment of property, plant and equipment

(1 399) (3 049)

An impairment loss was recognised, relating to property, plant and equipment items written off at Afrimat Aggregates (KZN) Proprietary Limited and Afrimat Contracting International Proprietary Limited (F2017: Delf Silica Coastal Proprietary Limited), which had no further economic value and have been removed from the register.

3. Disposal of subsidiary

During F2017, the group disposed of 100% of its shareholding in AFT Aggregates Proprietary Limited ("AFT Aggregates") to Nityn Proprietary Limited on 1 April 2016. The company was previously included in the "Aggregates and Industrial Minerals" segment. Details of the disposal are as follows:

5. Income tax expense

4

The effective tax rate of the group decreased from 30,5% to 24,2% in the current year mainly due to the income tax deductibility of expenditure actually incurred in settlement of the shares exercised in terms of the Share Appreciation Rights Scheme, by means of the formalisation of appropriate cost recharge agreements in the Afrimat Group.

6. Currency translation differences

Foreign currency transactions relating to the Mozambique operations are translated into the presentation currency (ZAR or R) by means of translating assets and liabilities at the closing rate at the date of the statement of financial position and income and expenses at average exchange rates for the year and recognising all resulting exchange differences in other comprehensive income. Exchange differences arising on monetary items that form part of the group's net investment in the Mozambique operations are recognised in other comprehensive income, whilst all other translations including those on short-term receivables, are recognised in profit or loss.

^{*} Previously Diro Manganese Proprietary Limited.

The group reinvested previously released unit trusts, resulting in an increase in the investment in environmental insurance policies. Further investments in environmental insurance policies were acquired as part of the business combination of Demaneng (refer to note 14). The fair value of unquoted unit trusts is derived using the adjusted net asset method. The adjusted net asset method determines the fair value of the investment in the unit trust by reference to the fair value of the individual assets and liabilities recognised in a unit trust's statement of financial position. The significant inputs to the adjusted net asset method are the fair values of the individual assets and liabilities whose fair value is derived from quoted market prices in active markets. The fair values are indirectly derived from prices quoted in Level 1, and therefore included in Level 2 of the fair value hierarchy.

In the prior year funding for the Demaneng acquisition (refer to note 14), was obtained by means of utilising the company's current general banking facilities with The Standard Bank of South Africa Limited ("SBSA") as well as FirstRand Bank Limited ("FNB"). During the current year, the group refinanced the debt included in the general bank facilities into a R300,0 million amortising five-year term facility with SBSA and FNB, bearing interest linked to the three-month Jibar rate and payable in quarterly instalments commencing on 30 November 2017.

Included in the prior year's short-term bank deposits is an amount of R110,1 million relating to available cash in AEI after the disposal of shares to ARC. During the current year, R79,5 million of the available R110,1 million was paid to the South African Revenue Service ("SARS") in relation to PAYE, SDL and arrear taxes from participants of Afrimat BEE Trust.

During the year, the group refinanced the debt included in the general bank facilities into a R300,0 million amortising five-year term facility with SBSA and FNB, bearing interest linked to the three-month Jibar rate and payable in quarterly instalments commencing 30 November 2017.

During F2017, the group financed plant and machinery with SBSA, to fund capital expenditure and working capital requirements to support the growth and expansion of the group. A vehicle asset finance facility of R109,6 million over 36 months at prime rate minus 1,5%, repayable in monthly instalments of capital and interest was agreed upon for this purpose.

During F2017, SBSA provided funding to AEI in the amount of R141,3 million for the redemption by AEI of all of its existing preference shares in issue and to pay the existing preference share aggregate redemption quantum to Afrimat Limited. The company's shares held by AEI/Afrimat BEE Trust served as security for the preference share funding provided by SBSA. On 8 December 2016, AEI repaid the debt from SBSA and was subsequently released from the company pledge and cession agreement as set out in the subscription agreement with SBSA.

Net capital proceeds owing to Afrimat BEE Trust participants	12 968	38 111
Deferred liability: Demaneng minorities	8 888	_
,	21 856	38 111

Upon implementation of the ARC Transaction, the beneficiaries of the Trust received their respective consideration net of liabilities and ceased to be participants under the current BEE scheme. This liability exists due to an amount owing to beneficiaries whom could not be traced, mostly deceased individuals. Afrimat is in the process of tracking these beneficiaries to ensure payment occurs timeously.

On 22 August 2017, the group announced on SENS that Afrimat had concluded a sale of shares and claims agreement with the minorities of Demaneng to acquire the remaining 40% stake in Demaneng as from 15 August 2017. The purchase consideration of R44,0 million

is payable in nine tranches as follows: eight monthly instalments of R5,0 million per month for eight consecutive months commencing 15 August 2017; and R4,0 million in one final instalment.

14. Acquisition of businesses

Afrimat Demaneng Proprietary Limited and Diro Iron Ore Proprietary Limited ("Demaneng")
The group acquired 60% of the issued shares of Demaneng, as well as a cession and delegation agreement with Investec Limited to purchase all of its security. The aggregate purchase consideration (including funding provided) for the acquisition of Demaneng was R276,0 million.
On 13 July 2017, all conditions precedent, including section 11 approval from the Department of Mineral Resources ("DMR"), were fulfilled and the agreement became unconditional. On 22 August 2017, the group announced on SENS that Afrimat had concluded a sale of shares and claims agreement with the minorities of Demaneng to acquire the remaining 40% stake in Demaneng from 15 August 2017 for an aggregate purchase consideration of R44,0 million.
The acquisition will complement and augment Afrimat's product offering and further expand its footprint across South Africa. Given the nature of Demaneng's reserves and the access to infrastructure, together with Afrimat's existing competencies, the transaction allows the ability to leverage the combined strengths which will result in developing new revenue opportunities for Afrimat in the iron ore space.

Preliminary details of the acquisition are as follows:

		Demaneng

* Property, plant and equipment includes the fair value of mining assets acquired.

At acquisition, the fair value of trade and other receivables was R8,8 million and includes trade receivables of R8,0 million. An amount of R8,8 million is reflected as neither impaired nor past due.

Cape Lime Proprietary Limited ("Cape Lime")

The group acquired 100% of the issued ordinary shares of lime and associated products producer, Cape Lime, on 31 March 2016. The aggregate purchase consideration paid for the acquisition of Cape Lime was R282,6 million and was settled in cash amounting to R259,0 million and reissuing of treasury shares of R23,6 million. Included in the purchase consideration was an interest amount of R6,6 million. The original cash consideration of R252,4 million bore interest at SBSA's prime overdraft rate less 2% from 10 December 2015, or from such earlier date in the event that all approvals were received from the authorities. The acquisition will complement and augment Afrimat's industrial mineral product offering and further expand its footprint across South Africa.

The parties to the acquisition recognise the scale of potential business opportunities that such a relationship presents, as Afrimat and Cape Lime have different and complementary strengths. Leverage from the combined strengths will result in developing new revenue opportunities for Afrimat and Cape Lime.

Total

Details of the acquisition are as follows:

^{*} Property, plant and equipment includes the fair value of mining assets acquired.

At acquisition, the fair value of trade and other receivables is R29,1 million and includes trade receivables of R26,9 million. An amount of R25,1 million is reflected as neither impaired nor past due.

Bethlehem Quarry and ancillary businesses from WG Wearne Limited ("Wearne")
Wearne Aggregates Proprietary Limited and Wearne Ready-Mix Concrete Proprietary Limited
both, wholly owned subsidiaries of Wearne, entered into an agreement with Afrimat Aggregates

^{**} The purchase consideration of R44,0 million is payable in nine tranches as follows: eight monthly instalments of R5,0 million per month for eight consecutive months commencing 15 August 2017; and R4,0 million in one instalment (refer to note 11).

(KZN) Proprietary Limited and Afrimat Concrete Products Proprietary Limited, both wholly owned subsidiaries of Afrimat, on 6 July 2016 to dispose of the Bethlehem quarry and ancillary businesses as a going concern for R28,0 million. Furthermore, Wearne also agreed to dispose of Erf 4038, Bethlehem, Free State to Rodag Holdings Proprietary Limited, a wholly owned subsidiary of Afrimat, for R2,0 million. The effective date of the transaction was 17 October 2016.

16. Comparative figures

Certain comparative figures have been reclassified to enhance disclosure. These changes have no impact on the overall profitability.

Condensed consolidated statement of cash flows

Non-cash transactions relating to instalment sale agreements have been excluded from "acquisition of property, plant and equipment" and "proceeds from borrowings" in terms of paragraph 43 to 44 of IAS 7: Statement of Cash Flows.

As at year-end 28 February 2017, R69,3 million was reflected as "Repurchase of Afrimat shares" in the cash flow statement and included a non-cash flow item of R59,7 million. The only cash flow item that should have been reflected was for 440 000 of the company's own shares purchased on the JSE Limited via Afrimat Aggregates (Operations) Proprietary Limited. The total amount paid to acquire the shares was R9,7 million. The company identified that R59,7 million was a non-cash transaction and should have been netted-off against the R51,5 million "Effect on disposal of treasury shares to ARC" to reflect the only cash flow in the amount of R8,2 million which directly related to the CGT payable by AEI on the disposal of shares to ARC.

The effects of reclassification is as follows:

	Restated Audited year ended	Previous Audited year ended
	28 February 2017 R'000	28 February 2017 R'000
Cash flows from investing activities Acquisition of property, plant and equipment Net cash outflow from investing activities	(78 693) (448 161)	(134 521) (503 989)

Cash flows from financing activities		
Repurchase of Afrimat shares	(9 656)	(69 310)
Net movement in borrowings (refer to note 10.2)	5 376	61 204
Tax paid on disposal of shares to ARC	(8 200)	51 454
Net cash outflow from financing activities	(62 101)	(6 273)

17. Events after reporting date

No material events occurred between the reporting date and the date of this announcement.

18. Contingencies

Guarantees to the value of R87,5 million (2017: R87,2 million) were supplied by SBSA to various parties, including the DMR and Eskom, respectively during the year under review.

Guarantees to the value of R73,9 million (2017: R9,3 million) were supplied by FNB to various parties, including the DMR and Eskom, respectively during the year under review. The increase in amount with FNB relates to guarantees of R50,0 million provided to the business rescue practitioner and compromised creditors in terms of the Demaneng acquisition.

Guarantees to the value of R1,6 million (2017: R23,5 million) by Lombard's Insurance Group, R0,5 million (2017: R1,4 million) by ABSA Bank Limited, R94,2 million (2017: R10,9 million) by Centriq Insurance Innovation and R2,7 million (2017: R2,7 million) by SIG Guarantee Acceptances Proprietary Limited were supplied to various parties, including the DMR, Eskom and Chevron South Africa Proprietary Limited. The increase in amount with Centriq Insurance Innovation mainly relates to the acquisition of Demaneng and restructuring of the environmental rehabilitation guarantees of Infrasors.

The majority of these guarantees are in respect of environmental rehabilitation and will only be payable in the event of default by the group.

A contingent liability exists due to the uncertain timing of cash flows with regards to future local economic development ("LED") commitments made to the DMR in respect of companies with mining rights. These commitments are dependent on the realisation of the future agreed upon LED projects. Future commitments amount to R10,3 million (2017: R4,8 million). An accrual has been raised in respect of commitments made up to the end of the year.

The company received notice on 31 March 2017 from the Competition Commissioner that it had referred a complaint to the Competition Tribunal, alleging that the company, through its wholly owned subsidiary, Clinker Supplies Proprietary Limited ("Clinker"), has engaged in an abuse of dominance by allegedly charging excessive prices. After taking legal advice and considering the complaint, the company is of the opinion that there is no merit to the complaint and will therefore vigorously defend itself before the Competition Tribunal. The case is still ongoing. The Competition Commission is ordering an administrative penalty equal to 10% of affected turnover for F2016 which equates to R16,3 million.
