MANAGEMENT OF HEALTH RISKS ASSOCIATED WITH COVID-19: APPOINTMENT OF STRATEGIC ADVISER

In mid-March 2020, the Governments of Spain and South African introduced a national state of emergency and a national state of disaster, respectively, in response to the Covid-19 pandemic. Since then, Vukile has implemented various measures focused on the health and well-being of our customers, tenants, employees and other stakeholders.

In addition to our existing health and safety initiatives, Vukile has retained the services of Dr Barry Schoub in the capacity of strategic advisor to the Board on health matters related to the Covid-19 pandemic.

Dr Schoub is a world-renowned virology expert having served as first Professor and Head of the Department of Virology, University of the Witwatersrand, Director of the National Institute for Virology and as the founding Director of the National Institute for Communicable Diseases from which he retired in April 2011.

Dr Schoub has also served on several World Health Organisation (WHO) expert committees including: The Strategic Advisory Group of Experts for Influenza; Advisory to the Director-General of WHO on pandemic preparedness; roster of experts for International Health Regulations as well as serving on the Global Hygiene Council for several years.

The Board welcomes Dr Schoub and look forward to his contributions in Vukile's quest to ensure the health and well-being of our customers, tenants, employees and other stakeholders.
