Cash generated from operations: R115.7 million

Net debt to equity 1.04 : 1.00

Cash on hand R246.0 million

No dividend has been declared for the period ended 31 August 2020 (Aug 2019: Nil)

After concluding 12-18 months of rigorous restructuring initiatives, the internal construction division has been successfully closed. Management believes that the leaner business, together with little pressure to invest in capital intensive projects over the short-term and enhanced levels of liquidity, has positioned the business extremely well to deliver much stronger results once trading conditions post Covid-19 have normalised.

The Group continued to generate positive cash from operations, despite the difficult trading conditions, resulting in the net debt to equity ratio of 1.04 to 1, which is consistent with 29 February 2020. Cash resources remained strong with R246.0 million in cash on the balance sheet at 31 August 2020. Liquidity was further enhanced in September 2020 by securing and drawing on a new six-year, unsecured facility from the NHFC for R215.0 million. Remaining Bond Exchange maturities up to January 2023 is R185 million, which will, once the Group's debt restructuring efforts are complete, reduce to R85 million.

## **Memorial Parks**

Acting as a risk diversifier against the traditional lumpy and cash intensive Residential Property Development business, the Memorial Parks business has illustrated its potential in the first half by increasing cash revenue by 65.7% to R25.8 million and accounting revenue by 75% to R19.3 million (August 2019: R11.0 million).

## **Residential Property Development**

No construction in the Residential Property Development segment took place for 2 months due to the pandemic. This was unprecedented and resulted in once-off costs incurred to ensure future sustainability and liquidity. Covid-19 costs and the associated standing-time amounted to R35.8 million and the costs associated with the closure of the construction division amounted to R12.9 million. The closure of the construction division is a strategic decision which in future will result in a slight additional contribution to margin.
