

Ashburton Inflation Bond Exchange Traded Fund

A portfolio in the Ashburton Collective Investment Scheme in Securities Exchange Traded Funds (the portfolio) registered in terms of the Collective Investment Schemes Control Act, 45 of 2002

(Incorporated in the Republic of South Africa)

Share Code: ASHINF

ISIN: ZAE000215331

ABRIDGED AUDITED RESULTS FOR THE YEAR ENDED 30 JUNE 2020

The Ashburton Collective Investment Scheme in Securities Exchange Traded Funds (the Scheme) was established in accordance with the provisions of the Collective Investment Schemes Control Act 45 of 2002 (CISCA) with effect from 12 April 2008. The Ashburton Inflation Bond Exchange Traded Fund (the portfolio) was established as a portfolio of the Scheme in accordance with paragraph A of the deed of the Scheme on 5 March 2009.

The portfolio is a passive investment fund with the aim of providing returns linked to the performance of the Government Inflation Linked Bond Index (the index) in terms of both price performance, as well as income from the component securities in the index. The portfolio will aim to track the performance of the index.

The Portfolio was initially listed on the JSE on 1 June 2009.

Cash and cash equivalents at the end of the year	3 593 643	3 713 619

SUMMARISED ACCOUNTING POLICIES FOR THE YEAR ENDED 30 JUNE 2020

Basis of presentation

The annual financial statements have been prepared in accordance with IFRS issued by the International Accounting Standards Board (the "IASB"), including interpretations issued by the IFRS Interpretations Committee, the Financial Reporting Pronouncements as issued by the Financial Reporting Standards Council, the South African Institute of Chartered Accountants ("SAICA") Financial Reporting Guides as issued by the Accounting Practices Committee and the provisions of CISCA.

Standards, interpretations and amendments effective 1 July 2019

A number of new and revised standards and interpretations became effective from 1 July 2019, but they had no material impact on the Portfolio's reported earnings, financial position, reserves or accounting policies.

Financial instruments: Classification

The Portfolio has classified all its investments as financial assets or financial liabilities at amortised cost or at fair value through profit or loss ("FVPL").

Financial assets at amortised cost include other receivables, dividends and interest receivable and cash and cash equivalents.

Financial assets at FVPL

All financial assets not measured at amortised cost are subsequently measured at FVPL, except for investments in equities and rights which are mandatorily held at FVPL.

Financial liabilities at amortised cost

Financial liabilities that are not held-for-trading or designated as at FVPL are measured at amortised cost. This category includes fees payable and other payables.

Financial instruments: Cash and cash equivalents

Cash and cash equivalents comprise cash on hand and demand deposits, and other short-term highly liquid investments that are readily convertible to a known amount of cash and are subject to an insignificant risk of changes in value. All balances, except for physical cash which is held at call, included in cash and cash equivalents have a maturity date of less than three months from the acquisition date and are measured at amortised cost.

Participatory interest

The participatory interests are issued and redeemed at the holder's option at prices based on the Portfolio's net asset value per participatory interest at the time of issue or redemption. The Portfolio's net asset value per participatory interest is calculated by dividing the net assets attributable to the holders of the participatory interest by the total number of outstanding participatory interests, in accordance with the provisions of the Portfolio's supplemental trust deed.

Net assets attributable to participatory interest holders, evidence a residual interest in the assets of a portfolio after deducting all of its liabilities.

The value of the net assets attributable to participatory interest holders will vary with the changes in the underlying value of the investments, net of receivables and payables. The total movement in the statement of comprehensive income is transferred to the net assets attributable to participatory interest holders.

Creations and redemptions are recorded on trade date using the previous day's closing price.

In accordance with the Portfolio's supplemental trust deed, the Portfolio distributes its distributable income and any other amounts determined by the Manager of the Portfolio to participatory interest holders. For this reason, the participatory interest does not meet the requirements to be classified as equity in terms of IAS 32 and is thus classified as a liability. Distributions are automatically reinvested in additional participatory interests, other than distributions that are paid in cash.

Net income adjustment on creation and redemption of units

An adjustment to income arises on the creation and cancellation of units since the price of a unit includes accrued income and expenses. The income adjustment on creation or cancellation of units is recognised as part of the creation or redemption of unitholder interests and disclosed within the note of net assets attributable to participatory interest holders, when units on which it arises are either purchased or sold as these form part of the cash flow on unit transactions.

Investment income***Fair value gains and losses***

Gains and losses arising from a change in the fair value of investments, interest income on interest-bearing investments and dividend income, are included in the statement of comprehensive income under fair value gains / losses in the year in which the changes arise.

Interest income

Interest income on cash and cash equivalents is recognised in the statement of comprehensive income as part of interest income on the effective interest method.

Taxation

The Portfolio has no current or deferred tax liability as all realised gains and losses are considered to be of a capital nature and disregarded in the tax calculation of this Collective Investment Scheme portfolio in accordance with paragraph 61 of the Eighth schedule to the Income Tax Act No 58 of 1962. All investment income is distributed within the time frames specified by section 25BA of the Income Tax Act and is therefore taxed in the hands of the participatory interest holders.

Critical accounting estimates and judgements in applying accounting policies

No significant accounting estimates and judgements have been applied in the annual financial statements of the Portfolio.

All investments at FVPL are measured at fair value based on quoted prices in active markets and do not require the use of judgement or estimates.

SUMMARISED NOTES TO THE ANNUAL FINANCIAL STATEMENTS FOR THE YEAR ENDED 30 JUNE 2020
