2. DIVIDENDS

The board remains confident in the long term strength and resilience of the business in spite of the current challenges being faced. Despite a marked improvement in the Group's liquidity position, the board felt it prudent to not declare an interim dividend but to review its position at the end of the current financial year. The Group continues to protect liquidity as a priority given the ongoing impact of COVID-19 and to mitigate against uncertainty related to the potential impact of any further sale of alcohol bans and restrictions.
