CAUTIONARY ANNOUNCEMENT – HALT IN SUPPLY

Shareholders are referred to the announcement made on 11 May 2021 providing an update on contracts signed by the Company and are advised that Nutritional Holdings has been instructed by its customer to temporarily halt supply on the international agreements, namely GIH Distributors and Grovenor Supplements FZCO, based on concerns regarding the supply chain including packaging and supply requirements and transit restrictions as a result of the increase in South Africa's COVID-19 statistics which could result in the product needing to be chemically sanitised and quarantined.

Tests are currently underway in respect of the following:

1. The decontamination processes and its effect on the products;
2. The survival rate of the virus whilst in transit;
3. Post-delivery testing in respect of products fit for human consumption after decontamination.

It is unclear at this stage as to the time frame of the moratorium.

Shareholders are accordingly advised to exercise caution when dealing in the Company's securities until a further announcement in respect of the outcome of the above tests is made.

The Company also remains under cautionary in relation to the disposal of Nutritional Foods and the publication of the balance of the information required in terms of the JSE Listings Requirements, as announced on 19 May 2021.
