R3,2 BILLION CONTRACT AWARDED TO BOIPELO MINING CONTRACTORS, A MURRAY & ROBERTS AND AMANDLA TM JOINT VENTURE

Murray & Roberts is pleased to announce that Boipelo Mining Contractors has been awarded an approximate R3,2 billion contract for the provision of underground mining services at the Arnot Coal Mine in Mpumalanga, South Africa.

Boipelo Mining Contractors, a BBBEE Level 1 underground mining contractor, is a joint venture between Murray & Roberts Limited (49%) and Amandla TM (51%), providing contracting services to the local coal mining industry. Murray & Roberts Cementation will be the active partner with Amandla TM (100% black-owned) on this project.

The Group understand the global implications of climate change and is committed to reducing its carbon footprint and growing its service offerings in the cleaner energy sector. Considering the shortage of electricity in South Africa and Eskom’s dependence on its fleet of coal-fired power stations to generate electricity to meet base-load demand, the Group has decided to limit its coal mining service offering to the South African mining sector.
