ATTACQ PORTFOLIO UNAFFECTED BY RECENT CIVIL UNREST

Shareholders are advised that Attacq’s direct property portfolio including its retail centres and logistics centres did not suffer any damage as a result of the recent civil unrest.

To exercise caution, on 13 July 2021 at 14h00, the decision was made to temporarily evacuate the Mall of Africa and Waterfall Corner, while strategic entry and exit points to Waterfall City were secured with security resources. All operations resumed the following day.

The safe keeping of the Waterfall precinct was, in large part, due to the support of local communities, taxi associations, local law enforcement and private security, all of whom worked together. Attacq expresses its appreciation to these stakeholders.

The safety of staff, residents, shoppers and clients continues to be a priority and the situation is continually monitored with the support of our communities and law enforcement.
