**IMPACT OF KZN FLOODS ON HULAMIN OPERATIONS**

---

Hulamin is located in a semi-industrial area in Pietermaritzburg, KwaZulu Natal. Between Sunday 10 April and Monday, 11 April 2022, a number of districts in the KwaZulu-Natal province experienced torrential rain which resulted in many arterial roads being flooded, damaged and / or temporarily closed. The road closures unfortunately impacted Hulamin supplies of both Liquid Petroleum and Compressed Natural Gas. Supply of both products has been restored and operations are back to normal, following minor disruption to normal operations.

Shareholders will be updated should further problems be experienced.
