DEBT AND COVENANTS

Despite over two years of various restrictions and closures affecting the business as a result of the COVID-19 pandemic, the group was within its original net leverage covenants for the 12 months ended 31 March 2022. The net debt to adjusted EBITDA ratio for the year, as measured for covenant purposes, amounted to 2.89 times, the required covenant being less than 3.0 times.

With the focus for the year under review being on cash generation and a return to being within covenants, the group managed to reduce its net interest-bearing debt and guarantees significantly by R1.9 billion from R10.9 billion at 31 March 2021 to R9.0 billion at 31 March 2022.

At the date of this report, the directors are not aware of any circumstances whereby the group should not be able to achieve the original covenant requirements for September 2022.
