Repayment of SGIH loan funds

On 1 February 2022, MC Mining announced that it had entered into a staged ZAR 86,036,691 (approximately US\$5.6 million) Convertible Advance and Subscription Agreement (the **Agreement**) with South African resources investor, Senosi Group Investment Holdings Proprietary Limited (**SGIH**). In accordance with the terms of the Agreement, SGIH initially loaned the Company ZAR 46,036,691 (approximately US\$3.0 million) (the **First Tranche Funding**) that was subsequently converted into 38,363,909 new Ordinary Shares (the **First Tranche Shares**). The First Tranche Shares were issued by the Company on 6 April 2022 and resulted in SGIH acquiring 19.9% of MC Mining's issued share capital.

Second Tranche Funding

As part of the Agreement, SGIH also conditionally agreed to loan the Company up to a further ZAR40 million (the **Second Tranche Funding**) that would, subject to the receipt of all required approvals, convert into an additional 33,333,333 new Ordinary Shares (the **Second Tranche Shares**) at ZAR1.20 per share. The issue of the Second Tranche Shares was subject to MC Mining shareholder approval at today's shareholders meeting. The first two instalments of the Second Tranche Funding totalling ZAR20 million (US\$1.3 million) were advanced to MC Mining in April and May 2022 respectively. The issue of the Second Tranche Shares required approval of Resolution 2 at today's shareholder meeting.

As the requisite shareholder approval was not obtained, the final two instalments of the Second Tranche Funding will not be advanced and the amount already advanced under the Second Tranche Funding is now repayable by the Company within 30 days. This ZAR 20 million loan from SGIH will be repaid using part of the ZAR60 million standby loan facility with Dendocept (Proprietary) Limited (the **Standby Loan Facility**), announced by the Company on 6 June 2022, as well as internal cash resources. If part of the funds provided under the Standby Loan Facility are applied to repayment of the Second Tranche Funding, and based on, *inter alia*, prevailing forward API4 coal prices and management of group facilities including the Standby Loan Facility, the Company's cash runway is expected to extend to beyond November 2022. In addition, as previously announced, MC Mining is also pursuing several alternative options to secure the necessary funding for the construction of the Makhado Project.
