Kumba – Force Majeure declared by Transnet due to strike action

Kumba has received a notice of force majeure from Transnet SOC Limited ("Transnet") on 7 October 2022 due to strike action by Transnet's unions.

We have implemented contingency plans to safeguard our assets and minimise the impact on operations. However, as a result of the disruption to Transnet's rail and port services, the estimated impact on production is approximately 50,000 tonnes per day for the first seven days and thereafter, approximately 90,000 tonnes per day. Export sales will be impacted by approximately 120,000 tonnes per day.

Kumba will continue to monitor the situation closely and provide further updates, as appropriate. The company's production and sales report for the third quarter of 2022 is scheduled for release on 27 October 2022.

This announcement contains forward-looking statements which are based on the Company's current beliefs and expectations about future events. The operational and financial forecasts provided in this announcement are estimates and the financial information on which the trading statement is based, has not been reviewed and reported on by the Company's external auditors.

Production and sales volumes referred to for the period are 100% of Sishen Iron Ore Company Proprietary Limited ("SIOC"), and attributable to shareholders of Kumba as well as to the non-controlling interests in SIOC.

Anglo American is a leading global mining company and our products are the essential ingredients in almost every aspect of modern life. Our portfolio of world-class competitive operations, with a broad range of future development options, provides many of the future-enabling metals and minerals for a cleaner, greener, more sustainable world and that meet the fast growing every day demands of billions of consumers. With our people at the heart of our business, we use innovative practices and the latest technologies to discover new resources and to mine, process, move and market our products to our customers – safely and sustainably.

As a responsible producer of diamonds (through De Beers), copper, platinum group metals, premium quality iron ore and steelmaking coal, and nickel – with crop nutrients in development – we are committed to being carbon neutral across our operations by 2040. More broadly, our Sustainable Mining Plan commits us to a series of stretching goals to ensure we work towards a healthy environment, creating thriving communities and building trust as a corporate leader. We work together with our business partners and diverse stakeholders to unlock enduring value from precious natural resources for the benefit of the communities and countries in which we operate, for society as a whole, and for our shareholders. Anglo American is re-imagining mining to improve people's lives.
