Mondi announces closure of Stambolijski paper mill following fire

Following the fire at Mondi's Stambolijski mill (Bulgaria) on Tuesday 24 September 2024, the Group has announced that it will permanently close the mill.

The fire caused extensive damage to the 100,000 tonne per annum brown kraft paper machine and stopped production at the site. Thanks to the swift and professional response on the day, everyone on site remained safe.

After evaluating the options for repairing the mill and the ongoing investment required for the mill to remain competitive into the future, Mondi has concluded that closing the mill and serving customers out of its network of other kraft paper mills is the best course of action overall. This decision will affect around 300 Mondi Stambolijski employees.

There is expected to be approximately €100 million of net closure costs, primarily related to a non-cash asset impairment which we will book as a special item.

- END -
